

Documentation SIG

**Jennifer Teig von Hoffman, Jim Miller,
Stephenie McLean, Dwight McKay, Terry
Disz, Brian Corrie, Johnnie Spraggins**

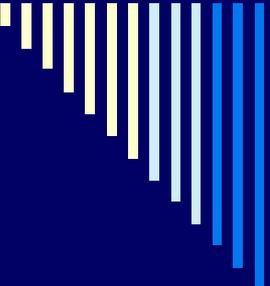

Incentive Problem

- Documentation is much needed but hard to fund, and doesn't provide much glory
 - Need to provide more incentive to AGDP authors, mostly through public thanks
-

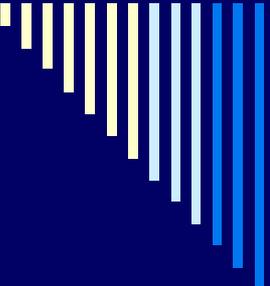

Incentive Recommendations

- Announce new/revised docs on ag-tech and ag-users, not just agdp-announce, and include author's name and institution
 - Regular piece in AG Focus to announce new docs in similar way
 - Encourage more people to use AGDP as part of dissemination strategy for projects (NSF and others like to see projects publish in peer-reviewed outlets)
 - Remind grad students that publishing on AGDP can look good on their CV
-

Visibility and Coherence Problems

- AG docs found in at least 3 places
 - AGDP
 - AG2 web site
 - /doc in CVS repository, browse by web
-

Visibility and Coherence Recommendations

- Restore more prominent link to AGDP on AG web site; create one on AG2 web site
 - Provide integrated link to online help in Venue Client
 - AG dev team submit their docs for publication on AGDP
-
