Bibliography of MPI Articles

[1] `acac02:mpi-impl`
M. Acacio, O. Canovas, J. M. Garcia, and P. E. Lopez de Teruel. MPI-Delphi: an MPI implementation for visual programming environments and heterogeneous computing. *Future Generation Computer Systems*, 18(3):317–333, January 2002.

[2] `FAcer2004`
F. Acernese, F. Barone, R. De Rosa, A. Eleuteri, L. Milano, and Pardi. A multi-standard farm prototype for gravitational wave signal analysis. *Classical and Quantum Gravity*, 21(5):S837–S842, March 2004.

[3] `Ada98:mpi-application`
P. Adamidis. Steel strip production — a pilot application for coupled simulation with several calculation systems. *Journal of Materials Processing Technology*, 80-1:330–336, August-September 1998.

[4] `ncstrl.cornell.tc//95-228`
Jean-Marc Adamo. ARCH, an object-oriented library for asynchronous and loosely synchronous system programming. Technical Report 95-228, Cornell Theory Center, December 1995.

[5] `adve02:mpi-impl`
V.S. Adve, R. Bagrodia, E. Deelman, and R. Sakellariou. Compiler-optimized simulation of large-scale applications on high performance architectures. *Journal of Parallel and Distributed Computing*, 62(3):393–426, March 2002.

[6] `AAfsa2002`
A. Afsahi and N. J. Dimopoulos. Efficient communication using message prediction for clusters of multiprocessors. *Concurrency and Computation-Practice & Experience*, 14(10):859–883, August 2002.

[7] `JAgra2004`
J. Agrawal and T. V. Mathew. Transit route network design using parallel genetic algorithm. *Journal of Computing in Civil Engineering*, 18(3):248–256, July 2004.

[8] `ahm01:mpi-alg`
I. Ahmad. A distributed algorithm for finding prime compatibles on network of workstations. *Microprocessors and Microsystems*, 25(4):195–202, June 2001.

[9] `IAhma2003`
I. Ahmad. HARD: A hypercube embedding algorithm for state assignment of finite state machines. *Computers & Electrical Engineering*, 29(2):327–356, March 2003.

[10] AhuLon97:mpi-rk-scattering
V. Ahuja and L. N. Long. A parallel finite-volume Runge-Kutta algorithm for electromagnetic scattering. *Journal of Computational Physics*, 137(2):299–320, November 1997.

[11] alta01:mpi-eval
K. Al-Tawil and C. A. Moritz. Performance modeling and evaluation of MPI. *Journal of Parallel and Distributed Computing*, 61(2):202–223, 2001.

[12] VNAle2003
V. N. Alexandrov, I. T. Dimov, A. Karaivanova, and C. J. K. Tan. Parallel Monte Carlo algorithms for information retrieval. *Mathematics and Computers in Simulation*, 62(3-6):289–295, March 2003.

[13] GAlfo2004
G. Alfonsi and L. Muttoni. Performance evaluation of a Windows NT based PC cluster for high performance computing. *Journal of Systems Architecture*, 50(6):345–359, June 2004.

[14] alia02:mpi-app
S. Aliabadi, A. Abatan, A. Johnson, J. Abedi, Y. Yeboah, and K. Bota. Stabilized finite element formulation of buoyancy driven incompressible flows. *Communications in Numerical Methods in Engineering*, 18(5):315–324, May 2002.

[15] alia02a:mpi-app
S. Aliabadi, A. Johnson, B. Zellars, A. Abatan, and C. Berger. Parallel simulation of flows in open channels. *Future Generation Computer Systems*, 18(5):627–637, April 2002.

[16] GAlte2004
G. Altekar, S. Dwarkadas, J. P. Huelsenbeck, and F. Ronquist. Parallel metropolis coupled Markov chain Monte Carlo for Bayesian phylogenetic inference. *Bioinformatics*, 20(3):407–415, February 2004.

[17] PRAme2003
P. R. Amestoy, I. S. Duff, J. Y. L'Excellent, and X. Y. S. Li. Impact of the implementation of MPI point-to-point communications on the performance of two general sparse solvers. *Parallel Computing*, 29(7):833–849, July 2003.

[18] PAmic2003
P. Amico, L. Bosi, C. Cattuto, L. Gammaitoni, F. Marchesoni, and Punturo. A parallel Beowulf-based system for the detection of gravitational waves in interferometric detectors. *Computer Physics Communications*, 153(2):179–189, June 2003.

[19] PAmic2004
P. Amico, L. Bosi, C. Cattuto, L. Gammaitoni, M. Punturo, and Travasso.

A computational test facility for distributed analysis of gravitational wave signals. *Classical and Quantum Gravity*, 21(5):S847–S851, March 2004.

[20] `anku02:mpi-app`
A. L. Ankudinov, C. E. Bouldin, J. J. Rehr, J. Sims, and H. Hung. Parallel calculation of electron multiple scattering using Lanczos algorithms. *Physical Review B*, 6510(10):4107–4107, March 2002.

[21] `Ann99:mpi-app`
V. Annamalai, C. S. Krishnamoorthy, and V. Kamakoti. Adaptive finite element analysis on a parallel and distributed environment. *Parallel Computing*, 25(12):1413–1434, November 1999.

[22] `anon02:mpi-models`
Anonymous. Message passing. *Parallel and Distributed Computing: A Survey of Models, Paradigms and Approaches*, pages 95–109, 2002.
